TROUBLE WITH HOUSEBOY.

At the Magistracy, before Mr. C. D. Melbourne, this morning, a Chinese The Company's Steamship 'SUI AN; hosseboy summoned Mrs. King, No. 10, Kowienn Docks, for wrongful dismissal and refusal to pay wages; and Mrs. King" brought a cross-summons against the boy

for disobeying her orders. The boy stated that his mistress sent him away and refused to pay him \$0.80 due in wages. "Mrs. King's story was to the effect she had a row with the boy over a shit which he neglected to deliver, that he breame insolent and threatened her, that he refused to work and eventually left without giving notice.

Mr. Turner, of the Dock Co., bore out Mrs. King's statement that the boy refused to give notice or to work, and stated that in consequence he (Mr. Turmer) told the boy that he could no longer stuy in the Dock quarters. Replying to his Worship, witness stated that flicre were 34 houses at the Docks, some of them double tenements, and there was often a great deal of trouble with the

His Worship said he found that the boy was dismissed by Mrs. King, through Mr. Turner, but rightly so, because the boy refused to work. Mrs. King would have to pay the boy the 49.80 due for avages, and the boy would be fined \$10.

A Chinese shoemaker, who stated that he ked only just come into Hongkong from the country, was to-day fined \$100, or two months hard labour, for selling 20 cents worth of opium. The case was heard before Mr. E. A. Trying

All unusual charge was bo-day preferred against three Sanitary Board coolies. namely ibat of theft from a dead body. It is alleged that they were engaged to take a body of a Chinese woman to the mortuary and while on the way they took a purse from the woman's pocket. They were remanded in bail of \$25,

MANCHESTER WEEKLY MARKET REPORT. James F. Hutton & Co. Ltd., Manchester, report under date April 4:-

The movement of American cotton " into\_ sight" for the week ending the 29th ult., was 203,000 bales; last year for the same week it was 100 000 bales; the movement "out of sight," i.e. deliveries to the world's spinners was for the same week 155 000 bales, and last year 163,000 bales.

The stock of piece goods and yarns (including copper and yellow metal sheets) at Bombay on Feb. 20th, were 55,742 pickages, the reduction during that month being 6,231 packages as compared with January 31st last. The arrivals had been considerable during the month, and the clearances must therefore have been on large scale; the present stock is about

The trade of Singapore increased considerably last year viz: by \$11,' 00,000 in imports and \$3,000,000 in exports, Rubber accounting for \$2,500,000 of the latter inciesse. These figures confirm our expectations, of a gradually expanding volume of trade with that Port, as the chief distributing centre for the F. M. S. and also for the neighbouring islands. Penang also is increasing her trade, being favourably situated for this purpose, with the more Northerly part of the F. M. S ....

In mail advices from Shanghai to the 14th uit., business was reported as not having made a fair start since the outbreaks and looting of the soldiers at Peking, Tientsin and elsewhere; the native banks were only partially giving credits to the dealers, which circumstance curtailed business to a great extent; notwithstanding, there was a reasonable prospect of better times, clearances were expected to increase, and already new orders had been placed with this market for up to June delivery. Since then we learn by cable that order was practically restored and ministry formed at Peking, characterised

however as a somewhat weak one. Some of the merchants here are still without complete forwarding instructions from China for goods delayed for the convenience of the importers on the other side, while others have been more fortunate: therefore we can in this market spin yarns for China and whose orders were stopped in the same way. It is to be hoped these delayed shipments will be quickly ordered off.

## MACAO NOTES.

(From Our. Own Correspondent) Macao, April 26. I have to chronicle two most unexpected

shifts in the Government personnel for one of which I have the authority of the Diorio de Noticias and private letters from Lisbon. In its issue of 26th March last the paper says: -" The "decree of 28th October, 1911, appointing Mr Ferreira de Rochs, an Officer of the naval administration, Colonial Secretary in Macuo

"The Diario do Gorerno will publish to-day the decree reinstating in his old post the Secretary-General of Macao, Dr Manuel Marsilha, an official with valuable fecord of work in the colonies of Angola and Magao, who was relieved of his duties by decree of 29th May, 1911-Endursing the opinions of the competent stations, the Minister for the Colonies can see in the acts of Dr Mansilha no motive. to adopt disciplinary measures but only decrees, ordinances and information which do him great honour and has revoked the discharge. By so doing he has done Dr. Minsilha the justice due which the latter has demanded for many months."

While deploring the exit of Lt Rochs, we heartily welcome the return of Dr Maneilha, but are unable to speak in a similar voin with regard to Captain Sanches Miranda, the new Governor-elect of Macao rice Lt. Machado who is leaving us at the end of May to the general regret of the Colony and of all those who have her well-being and uplift at heart. In days gone by Captain Mirauda was here as Commandant of the Artillery Corps a very estimable personality and possibly a tactician parexcellence, yet for all that hardly a fit successor to Lieut: Alvaro Machado.

Our ex Inspector of the Treasury, Sr. Goes Pinto, has resumed charge of the Colony's finances after a short term in Angola. Though his savvir faire is keyond question it is a pity that Lisbon, should have so wantonly tried the precarious recources of the Colony by making a need. less errand for him to Africa and back when the sub-Inspector, Sr. J. Quirino. Pacheco de Souza, would have been, in the light of past experience, the right man in the right place.

The locality of a recent burglary, whose scant police surveillance has deseryedly called for much acrid censure, was, at about 3 a.m. this morning, the scane of another daring raid. A native tenement was broken into and two trunks carried a spot right under the battlements of the Monte Fort. Here the three miscresuts removed from the boxes their most valuable contents and were starting down hill when they were challenged by a licutenant who heels with the officer in their wake. The latter fired three shots at the fugitives but only succeeded in rousing the whole neighthe man on the beat and was the only one nabbed.

The Osaka Mainichi states, that on April 18 when the P. and O. S. Namu was about to weigh anchor from Kobe, steam launch full of European passengers went alongside, but the see was so rough that they had much difficulty in getting on board. One English lady in trying to step on the ship's ladder fell into the until Mr W. B. TYPEWRITER FIGHT. A Battle Royal Pen ing.

In Pinancial America we read the fol

The greatest fight in the history of the typewriter business is new on. It opened up-about two weeks, ago with a statement from one of the leading companies that it had made a sale unprecedented in the history of writing devices. At about the same time's statement was issued from another leading company to the effect that it had made a change by which it had assumed, under it's own name the trade of two other companies which are minus a family tree. These two statements were practically the opening guns of an active campaign which will attract much attention in the future. It means a new order o things in the typewriter world, a change more important than anything that has happened since the Union Typewriter Co. was incorporated in 1893 and took into its fold the Remington, Yost, Densmore, New Century and Smith Premier machines, afterward adding to this number a visible machine intended to offset the influence of the Underwood which had brought out the new and original feature of visible writing. This new happening in the typewrit x world, by which the Smith Premier and Monarch companies will no longer be

known as "ecparate companies," but really integral parts of the Remington, is of great interest to the trade. In order to bring it about, it was necessary for the Remington company to get permission from the Legislature to sell the Monarch and Suith Premier machines under the name "Remington." As soon as this bill was passed, all the United States offices of the Smith Premier and Monarch companies were closed, and the goods, chattels and sa'es organizations of these companies were turned over to the Remington company.

Typewriter igen say that this new event in their business really narrows itself down to a fierce fight between the two largest companies, the Underwood and the Remington. Both companies have sounded their battle cries-the Underwood to the effect that it intends to maintain, its positon as the greatest individual typewrite company in the world, manufacturing the greatest number of typewriters a day; the Remington that it has "for co ordination purposes taken to itself the two companies the Monarch and the Smith Promier, and intends to expand. When it is consider d that \$34,000,000, representing the capital stock of the Underwood and Remington

companies, is involved, the magnifude of

the coming fight can easily be estimated. In connection with the consolidation of the Remin\_ton, Monarch and Sin th Premier companies the typowriter world is asking the question whether this getting together does not mean the repetition of history by the final abeliti n of the Smith Premier and Monarch typewriters and the building up and pushing only of the product of the Remington company. This would be in line with the action at one time of the Union Typewriter Co. when it stopped activel. promoting in this country the New Century, Yost and Densmore and brought all its pressure to bear toward advancin the sale of the Remington and Smith Premier machines, one equipped with a si-gle and the other with a complete key oard. At this time the Reming ton company claims that the getting together of three typswriter companies is really one of the means ad pted to bring about the expansion of their business. also claims it will used the name "Remington" to indicate the one general company

that will control the three businesses, but that it will continue to sell the oth r machines as well'as its own. This view s 405 not shared by expertatio the typewriter trade, who claim that within a few yearthe new combination will stop pushing any machine except the one represented by the name of the company. Evidence of the prospective heat of this typewriter battle came about a week a o when the Underwood Typewriter Co. mad-

the record-breaking sale of ten thousand. (10,000) Underwood machines to the West ern Union Telegraph Co. for the equipment of their various large offices. This sale had been pending for very nearly a year and all other typewriter companies were incompetition. As soon as it was closed and the Underwood p ople started to make it known to the world, there was printed in a newspaper an article-disparaging the price obtained by the Underwood companies for this large number of typewriters. This report stated that the id offered to the Western Union by the Underwood company was unsually low, much lower than that of the other companies. It has now been discovered that the Underwood company's bid for the special machines required by the order was as high, and even higher, than any of the

The fact according to those who know bout the deal is that the price obtained by the Underwood Typewriter Co. was an excellent one, and the quality, of the typewriters was decided by an eight months' test in practical operation of all the machines aide by side. In referring to the sale the Tlegraph and Telephone Age

The proposition of pur hasing the machines was referred to a committee some months ago. This committee, took into consideration nor only the necessity for the purchase of typewriters, but the practical and mewas a report to the company in favour of the purchase and adoption of the machine SECRETARIES of CLUBS, fust ordered. Within a year every telegram, and particularly the day and night letter. MANAGERS of HOTELS, grams received over the Western Union sires will be typewritten. When the m, thod is fully in force, it is expected that a vast improvement in the character of the belegraph service will be apparent."

The Great Channel Swim

## Burgess' Endurance and Vitality—

It is the big success, the great deed itself, that proves the wisdom of Burgess in employing Phosferine to provide the endurance and energy which enabled him to swim the Channel. To Phosferine the mighty Yorkshireman owes it that he has achieved more than any other living man, for on this historic occasion he used Phosferine to prepare for his daring and thrilling 23 hours' swim! Comparing his triumph with his previous failures. Burgess declares that the unlimited nerve force derived from Phosferine furnished the endurance to finish his swim successfully this time. Obviously Phosferine was the making of Burgess' great deed. and alike with other innumerable victors who have achieved renown by the invigorating aid of Phosferine, he frankly declares that Phosferine alone provides the force and vitality necessary for continuous mental and physical exertion.

#### How he made success sure.

Mr. T. W. Burgess, 30, Dover Road, Walmer, Deal, writes: "I am very pleased to place on record my keen appreciation of Phosferine as Mr. 8 a nerve and muscle tonic of the highest order. I have proved from experience the unfailing efficacy of this admirable, remedy, and in preparing for this special demand upon my energies, it has been of incalculable benefit to me, and its recuperative effects immediately after my successful Channel Swim were excellent. Its sustaining and strengthening properties are very marked, and for nervous breakdown. and feats of physical endurance I consider Phosferine is indispensable."

SOUTH AMERICA-THE DARKEST CONTINENT.

Potentialities of Brazil and Argantina.

Few people have any conception of the vastness of the great-continent-on-theother side of the equator-South America -the immense amount of wealth it contains, 'its agricultural resources' or the condition of its people. The missionary department of the Canadian churches has termed South "America" " The Darkest Continent," and Rev. Geo. W. Ray, who was recently in Victoria, B.C., delivering lectures on this great domain, justifies to the fullest extent this definition.

Chatting with the South-American missionary a " Victoria Times' " representative was told and interesting story of South America. Mr. Ray says he was engaged as government explorer for Bolivis and during the thirteen and a half years he spent in that country he came in contact with many tribes, which had never before been known to exist. As a result of his valuable discoveries, upon his return to this country, he was made a Fellow of the Royal Geographical Society. In honour of the work done by him the government of Brazil named one of the highest mountains in the centre of that country Mount Ray.

If there are any single men in this country desirous of going to Brazil to settle, Rev. Mr. Ray advises that they become married before they do so, as that country has no use for the bachelor. Any man who has not joined the ranks of the benedicts before he reaches the age of 25 years has a tax imposed upon him, and if at 30 he still rejoices in single blessedness his tax is doubled. Some of the men there, however, are philosophers and think it is cheaper to pay a tax than to keep a wife.

While on exploration trips Mr. Ray has been thousands of miles from the nearest railroad and among the wildest savages that are to be found anywhere on the globe. On one of his journeys he was caught by a band of heathers and carried before the chief of the tribe It was decided to adopt him and he was given the cognomen of "Big Cactus Red-Mouth," and for months he existed on the food which those inhabitants of the wilds of Brazil considered to be of the best. One day it was roast snake and the next day it was whatever you could eatch.

Some of the strocites which the missionery and explorer had the misfortune to behold seem to be too inhuman for belief, but Mr. Ray has set them writing, and his book on "Through Five Republics on Horseback," contains on recital of barbarities which appear to be the customs and habits of some of the people. In certain parts of Brazil persons who reach a certain age are deemed

to be of little more use, says Mr." Ray, and are buried alive. The poor victims watch their graves being dug, and when the work is finished they are lowered inthem and the earth is thrown upon them.

Another custom equally ferocious is that not more than two children can be born in each family. If a third child sees the light of day it must be immediately put to death. It is not a rare sight to see Light throughout. a skull and other parts of the human anatomy lying around on the ground and children playing with them. Despite the unsettled and undeveloped

condition of South America, especially Brazil, 'it is a great continent and Mr. Ray gives some interesting details of the various countries which make it up." He has glowing reports to make of the Argentine Republic, which he says is one of the greatest wheat producing countries in the world. Some of the largest farms known are to be seen in the Argentine. The Government's report state that 10,000 horses are killed annually for their hides, which shipped to the 'largest centres of world for the manufacturing of boots and Road, with garden. shoes. In the last ten years the Argentine has added 5,000,000 people to its population, and for every immigrant that enters Canada three go to the southern country. Buenos Ayres, which is looked upon as being one of the finest cities in the world, possesses buildings which it point of magnificence and architecture outclass any of the skyscrapers in the big cities of the "north. Only a short time ago the city completed the construction of enormous docks which cost \$35,000,000,-

of most of the South American countries Mr. Ray said that most of the people were infidels and had discarded Roman Catholicism. For centuries the inhabitants there were Roman Catholics, but latterly have become indifferent to the ministrations of the priests. In one of the great universities of South America out of the 4,000 students which attended. only shout 100 believed in the Deity.

## HOIHOW NOTES

(From Our Own Correspondent.) Hollow is quiet and hence prospering.

The weather has been showery and the heat, which has come to stay with us, is more endurable. Trade is good, and the be sent us not later than 1 p.m. native merchants have been making up for the losses they had at the close of last year. | before 3 p.m. · Our government is not yet much to speak of, but they have been paying-off and discharging unnecessary soldiers, and have done so without causing trouble.

The Customs service has had more than the usual number of changes and the French Consul has been changed. We hear that the order has come for the German Consul to go to Pakhoi.

The thousan's of coolies that have left here for Singapore and Bangkok during the last two months indicates that there must be some reason why the people should seek their fortunes elsawhere.

#### KWANGTUNG NEWS.

The Governor General of Kwangtung has notified the under officials that he has just received's despatch from the Preare to remain in force. . Meanwhile, whatever is obviously out of touch with the spirit of the Republic and does not approve itself to the enlightenment of the new age, is to fall into abdyance. It is obvious that this leaves a big loophole for those wh, wish to follow their own desires and gratify. personal projudices... Meanwhile, the laws relating to newspapers and prosumen are to obtain as they were o old. This seems to be the reply of the President to the appeal of the Provincial Assembly in regard to the execution of Ch'an Ti'ng-heung. Moreover if other newspaper offices have been opened lately. the promoters of which have not conformed task, Sir Herbert Tree threw out earthto the rules in respect to finding guarantors | works. "Whatever my demerits may be I and also depositing a sum of money in the am proud to think I am now a Foundation hands of the officials; as a guarantee of Orator," he said. "That I am not an good conduct, they are to see to it that the orator you, ladies and gentlemen, will soon rules are conformed to within one week discover," So Sir Herbert Tree just rend from the publication of the edict, in his address, & rather declaimed from it, Ve defiance of which, the local officials are and everybody was more than satisfied.

The words area Sir during the present uncertainty and till Herbert Tree's, and they form the keynote things are settled, the old laws of China to the delightful address on " The Human" lity of Shukespeare" which he delivered on March 21 in the Botanical Theatre of University College. Is was founders' week, and Sir Herbert Tree delivered the Foundation Oration to an packed audience of students of both sexes, with imposing lady visitors and famous professors in their bright academical robes sprinkled here and

It was a very eagur audience, that ridently expected much from the disinguished visitor. But immediately he had been presented by the nervous young president of the University College Union Society, whose committee sat there on the platform to support him in this onerous

It says :- " Let the disquieted remember there are limits to all power. The people cannot long light against permanent economic facts. The working man cannot inflict a wound on the general frame of society without hurting himself. There are limits to the power of labour. There is no force in existence that can tie capital to any country or compel enpitul to work at a loss. Whether a complete revolution of society is possible or would be beneficial is another question. In any case, such a revolution would have to be enforced on a field other than that of the polls. History check dies away, the Democracy often trusts temporary control out of its own hands to those in whom it believes nd there have been and there will be leaders whom the people love, who do not fear to tell them that for their part they are going in a differen

#### THE HONGKONG COTTON SPINNING, WEAVING & DYRING CO., LTD.

An Extraordinary General Meeting of the above company was held this morning at the officus of Mesara Jardine, Matheson and Co . Lid.

The Chair was occupied by the Hop. C. H. Ross (chairman), Sir Paul Chater, J. W. C. Bonnae (Crosulting Committee) Moser's Moxon, H. Gittens, Io K. Shui, H. F. Hickman, G. Friesland, A. S. Ellis, 1. Rodger, J. Harrop (manager), J. Kerbot consulting engineer) and Chas. Boswick (Secretary)

The Secretary having road the notice convening the meeting. The Chairman mid-I have taked you

meet here to-day to consider an offer which has been made by Mesers Jardine, Matheson and Co., Ltd., Shanghai, to purchase from the Company 10,000 of its spindles and accompanying equipment ab \$15 per spindle delivered in Shanghai. one, and had it emanated from any other | brigands. Villages are said to be burnt, firm, I should have recommended your Consulting Committee to themselves sancti n the sale. Under the circum. stances, however, I think it is in every way preferable to lay the offer fully A telegram received here dated Cal. of you may have full opportunity of con-

and clearly before you, so that each and all sidering the proposal. You will remember at our last Meeting, that I mentioned having received an offer from Japanese friends for the entire Mill as it stands, i.e. land, buildings, plant, machinery, etc. offered was \$700,000. The offer which put before you to-day, for 10,000 Spindles company of \$160,000. On our total instal-

submitting this offer for Sharsholders sanction; the general managers have had before them the following considerations. Notwithstanding our atmost endeavours, the supply of efficient labour causes us

anxiety and trouble. There is no don't that the scale of wages which we can afford pay offers but small inducement to the we have rarely been able from to get rid of our surplus quantity in preerence to keeping these idle. The Shang hai offer is for 10,000 spindles, and of this quantity there are 5,000 spindles and preparation purchased in the days of our resperity, which have been standing dle for several years. They were erected in a room which was originally intended or ginning ectton, but as this room was notvery ocaveniently situated, (it was found in practice to be costly in the transfer of material to and from the main mill) and there was also constant difficulty in providing operatives for the machines, this isolated plant has therefore given but a small return on the money invested. These 5000 spindles could therefore be disposed of without in any way interioring with the mill as originally planned, and

while these remarks do not apply to the same extent to the other 5000. Yet they would in the opinion of our consulting engineer and of our manager be quite sufficient for the finer yarns which it been decided to spin and apply to Hongkong and China markets. I would also point out that the money received these spindles would traterially reduce our overdraft and by saving of interest (nearly \$10,000 per annum) reduce cost of production. A point, which I think, should also be brought to your notice, is the porsibility in the future of the Republican Government of China arranging with the Treaty Powers for a very material increase in her Import sooner than many of us now deem probable or possible, and it might then become the whole of our plant and machinery to China and if the present favourable offer

## CONFLICTING REPORTS

#### SUR YATEEN IN CARTOR Not Too Optimistio.

In a recent issue of a native paper we nutice the reports of three events which s am so contrary the one with the other that it may not be uninteresting to notice them. First there is a brief telegram. which rapo to that a horde of rebels has risers and soized upon the Wai Haien, which is a prefecture situa ed in the

province of Kwangai. This is all that has

appeared at present, so that the public are

quite unacquainted with the extent of the

uprising, and the quantum of danger that threatens the stability of the province. The second fact that calls for notice is the leader. It enlarges upon the terrible state of affairs in the interior, and oses u the vocabulary of Chinese characters lying to describe the unsettled condition of the country, and the terrible evils from which the farmers and small shopkeepers Friday, May 24th, being Empire Day, In my opinion the offer is an advantageous suffer at the hands of marauders and

Indeed, according to the description of events, it would seem that in the interior there is less security than there was under the Manchus, and the local Government is called upon to look at these facts, and take steps immediately to remove the danger, or it will overwhelm what has already been done.

.The third report tells of the entry of Sun Yat-sen into Canton and the tremendous applause that was lavished upon him and his work. Almost every step be Ordinance, 1912. took is chronicled, and even the number of istion of 55,000 spindles this is equivalent bearers that carried his chair. But we are not here so interested in all this as in some of the speeches, which are summarized here before us. Sun Yat-son's be said that the Revolution is an accomplished fact. But though this is so, there are a great many people who do not truly understand the inner meaning of the Revolution nor what it implies. Therefore, let me remind you that you must not say that the case is won, and the merit yours We must not shrink back from the duties

These words indicate that the speaker sees clearly enough that, up to the present, the work of the leaders is anything but complete, and, therefore, he warned them with what has been secomplished, as if Two of these did not recover: there were nothing more to le done Afterwards, however, words seemed, to to overflow all boundaries. There was much toesting. There were three definite toests. First the Republic, then Sun Yate. Province. It is difficult to see why the single province should come in for special glory, seding that, notwithstanding the many attempts made, the central provinces must have the glory of having made the start which has so far been successful. But then the Kwangtungites have always. heen local and purochial first, national later afterwards Imperial. Meanwhile, we read "That at this juncture the half was full of people, and the business community. and the military were mixing together, and forming one complete whole. The business representatives praised in no measure terms the military for their prowess and ability in protecting the civil community d ming the crisis, and then the officers praised the business community for toe self-denying manner in they had found the money for the

Lepine, the Prefect of Police, who commanded large forces of police and republican guards. The Mayor of Choisy-le-rio and other citizens "participated in the fusilade with rifles sporting guns and revolvers, while thousands of inhabitants assembled armed with hayforks and other im promptu weapons, ready to cut off the escape of the criminals.

> The police were at first driven back; two being severely, wounded, but finally a straw-laden cart from the rear of which mattresses hung, was backed against the house. Sheltered by the mattresses, a lieutenant placed two bombs in position bombs did not explode. The managuard was repeated, and an explosion occurred but little damage was done. Bombs were again placed in position, and the wall collapsed and the house became ablaze. The police rushed in and brought out the noted anarchist Dubois dead, with three bullet wounds in his body. They found Bonnot dying from the effects of a dozen wounds; two of which were in the head and two in the head and two in the stomach. Both had committed suicide. The police, who were now reinforced by troops, had great difficulty in preventing the lynching of Bonnot, and after injuring many people they were compelled to abandon the body of Dubois, on which the mol trampled, dancing and yelling with de-

One could hardly wish for a more interesting display than that given last evening in the final of the Doubles-Handicap (Class "A") from which Mr H. A. Niebet and PHARMACEUTICAL H. R. Phelips (owe 20) emerged successfully by three games to one. They fully deserved their win, but one could not help admiring the splendid opposition afforded by Lt. Col. H. D. Stacpole, A. P. D., and Capt, F. J. Bowen, R. A. who owed 1/6-Niebet seldom failed in his neat angular touches just over the net which wen placed well out of the way of his opponents, while in his swift serving it was his first ball which invariably brought about the desired result. Some of his partner's best play was seen at the net, his returns being delivered with considerable judgment. Stacpole, though aut the most nimble of the quartette, played a fine game. He frequently resorted to high returns which, as a rule were a trifle. too strong. A stiff breeze at intervals did not tend to improve accuracy of play. The losers played a fine defensive game. Capt.

Bowen's low diagonal shots causing much perplexity. For a long time in the third set which went in their favour the result was quite a question. But Nisbet eventually fell into his stride, and backed up grandly by his partner, there eventually became little doubt as to the issue. Quite a feature of the game was some excellent short volleying, which, as it happened, generally occurred between Stacpole and Nisbet. There were many points of the game which did not fail to escape the notice and appreciation of the spectators, of whom there was a large number.

The first two sets went in favour of Nisbet and Phelips by 6-3, 6-2, while Stacpole and Bowen secured the third set by. 7-5% the score at one time standing 5-1 in their favour. The final set was exceptionally keen.

The result therefore was that Nesbit and Phelips won by 6-3, 6-2, 5-7, 6-3,
